) xayzsikli haqidagi malumotlar:

- Odatda qancha davom etishi rasmdagi formatda bo'lsa maqul
- Odatda necha kun davom siklingiz ikki sikli olganda
- Qachon ohirgi marta hayz kelgan
- Odatda nimalarni (simptomlar) sezasiz shu paytda : qizish, charchoq, asabiylashish, konsentratsiya qilishga qiynalish, qorin og'rig'i, toliqish, charchash)
- Hayzingiz haqida qanday fikrdasiz? (uyalaman, yomon koraman, men buni yaxshiroq organmoqchiman, biz dostday bolib ketganmiz)
- Sizda quyidagi kasalliklarni boshingizdan kechirganmisiz : yeast infection, urinary tract infection, bacterial vaginosis, polycystic ovary syndrome, endometriosis, fibroids, bilmayman, tepadagilarni birontasi ham emas(ozim yozaman) (rasmda berilib ketilgan
- Va habarnomalar yuborishga rozilik olish(bu siz uchun muhim malumotlarni ert berib turish va aniqlab turish uchun)

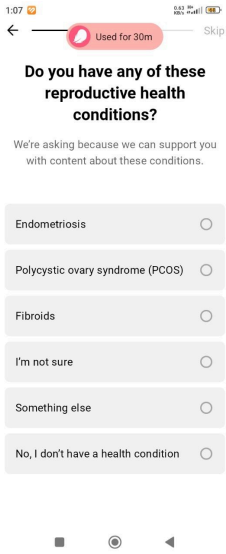

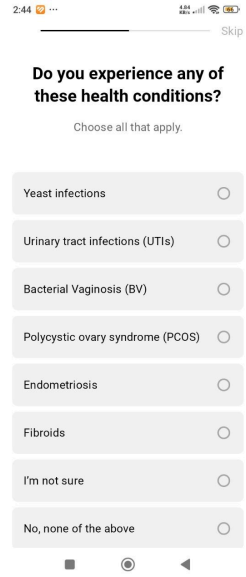

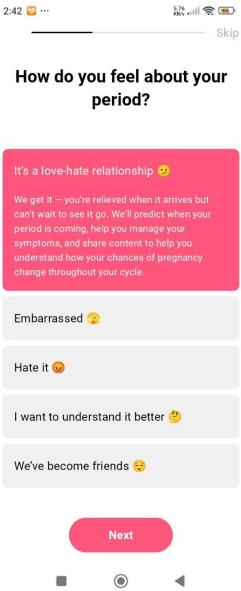

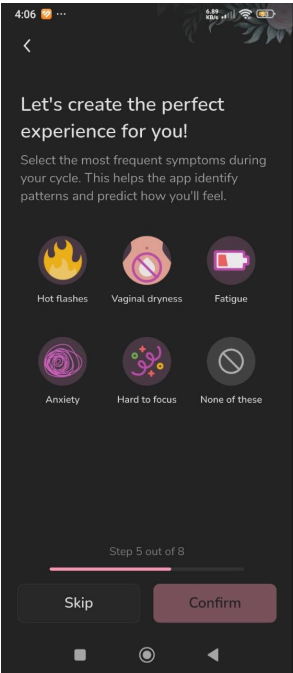

Agar faqat hayz siklini belgilagan bolsa maqsad sifatida unda tepadagi malumotlar yetadi, agar homiladorlikka harakat bo'lsa unda quyadigilar ham qoshiladi

The app interface consists of four main screens:

- Screen 1:** "Please enter your period" with a progress indicator 1/4. It asks "How many days does your period usually last?" and provides a range of 4-7 days. A "Next" button is at the bottom.
- Screen 2:** "Please enter your period" with a progress indicator 2/4. It asks "How many days does your cycle usually last?" and provides a range of 23-35 days. A "Next" button is at the bottom.
- Screen 3:** "Please enter your period" with a progress indicator 3/4. It asks "What's the start date of your last period?" and shows a date picker for August 2026, with the 25th selected.
- Screen 4:** A calendar view for August 2026, showing the start date of the last period. The 25th is highlighted. A "Confirm" button is at the bottom.

Additional text on the right side of the calendar view: "We started with a 5 day period Adjust for smarter predictions".
